Sqft Per Carton:	29.94
Co-ordinating Moldings:	Flush Stair Nose, T-Mold, Reducer
Warranty:	Lifetime Limited Residential 12 Year Limited Commercial

What Makes Harmony w/ Zen Core Unique?

Zen Core is a specialized material that is 30% less dense than traditional stone core products. This makes Harmony w/Zen Core significantly more pleasant to live on because it is softer, warmer, and quieter than traditional rigid flooring products. We also integrated a 22mil commercial wear layer and perfectly balanced construction, so you can stress less about the performance and longevity of your floor.
