Locking Installation

Features the Välinge 2G® locking system. Planks are easy to install and lock securely in place to form a floating floor with exceptional performance. Can be installed without the use of transitions.

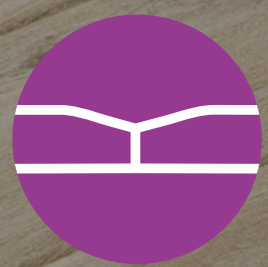

Waterproof

Planks are unaffected by topical moisture making them ideal for moisture-prone areas such as kitchens, bathrooms, laundry rooms, and basements.

Quiet

Zen Core is a specialized material that is 30% less dense than traditional stone core products. This results in a quieter, softer, and more comfortable floor to live on.

Pressed Bevel

The unique pressed bevel technology gives the flooring exceptional realism.

Durable

Developed to withstand busy commercial and residential applications.

Increased Stability

The Hybrid Engineered Vinyl Plank structure fuses multiple layers within the core that allow the product to be perfectly balanced. This helps counteract the effects of seasonal changes in temperature and humidity.

*Each colour has its own coordinating flush stair nose, t-mold, and reducer

SPECIFICATIONS

SIZE

9" x 48"
 228mm x 1220mm
